Overview
UC, classified as a university with "very high" research activity by the Carnegie Commission and ranked by the National Science Foundation as one of America’s top public universities for federal research expenditures, received more than $418 million in research funding in 2011.

UC Academic Health Center and its affiliates were responsible for bringing in more than $300 million of the research dollar total.

In 2009, the UC Academic Health Center was named the 39th recipient of an institutional Clinical and Translational Science Award (CTSA). This National Institutes of Health Funding, in the amount of $23 million, will help UC to bring innovations from the laboratory bench to the bedside and to applications within the community.

UC added another premier research facility to its Academic Health Center campus in 2008 with the opening of the
CARE/Crawley Building. This facility boasts nine stories of lab, administrative, library and recreational spaces.

**Research Offices**
- Entrepreneurial Affairs
- Intellectual Property
- Laboratory Animal Medical Services
- Research Compliance
- Sponsored Research

**Academic Health Center Research Offices**
- College of Medicine Office of Research and Graduate Studies

**Research Firsts**
- First oral polio vaccine
- First safe anti-knock gasoline
- First use of YAG laser to remove brain tumor

**More discoveries and developments**

**Facts and Figures (FY 2011)**

- Research funding total (entire university including affiliates): $418,282,277

- Awards by unit (excluding affiliates)
  - College of Allied Health Sciences: $2,948,751
  - College of Medicine: $133,375,494
  - College of Nursing: $1,748,610
  - College of Pharmacy: $2,717,290
  - Hoxworth Blood Center: $423,683

- Research awards to UC by funding source (not including affiliates—based on the university's total of $251,228,315)
  - Federal: $208,479,852
  - NIH: $100,949,904
  - Industry: $18,953,838
  - Local Government: $390,457
  - State of Ohio: $10,927,316
  - Other, Nonprofit: $12,476,853
